(13) It regards delivery on the same day (if possible) or on the next day of consignment arrival in Cyprus. See Clarifications & Explanations no.14.

The charges in the above table for the Supplementary International Services do not include VAT (presently at 24%).

## **Consignment Insurance**

### **1. Automatic Consignment Insurance (Basic)**

Every consignment carried by ACS, which is not classified as a prohibited good for transportation, is automatically insured for loss or damage as follows:

- For customers who pay in cash the basic charges of ACS SMSA's official tariff schedule up to €70 for envelopes and up to €400 for packages.
- For customers with special agreements for the carriage of numerous postal items and/or for the provision of postal services over long periods of time and to whom special lower prices are offered relatively to the basic charges of the said services, and/or credit for the provision of services through the use of a password (code), the specific terms and agreements referred to in such agreements are in effect., or up to €70 for envelopes and up to €220 for packages.
- Regarding the ACS Cyprus Economy (EC), ACS Europe Economy (EU) and ACS Europe Large Parcel (ED) services, each consignment is automatically insured for loss or damage up to the amount of €200 and €100, respectively.

### **2. Supplementary Consignment Insurance (Full)**

The following surcharges apply for the insurance of consignments (articles only):

Value of Shipped Articles	Domestic Premium & ACS NET	International Premium
Up to 600€	3,60€	10€
Up to 1.000€	6,00€	
Up to 1.500€	9,00€	1% of the insured value
Up to 3.000€	18,00€	
Above 3.000€	Upon contacting and agreement with ACS	

### **3. Insurance of Domestic Commercial Consignments (Business)**

Business Insurance is available for customers of large commercial (business) consignments (quantity of at least 100 consignments /month), by signing a contract which would specify lower premiums and lower coverage limits according to the following table:

Category/ Type of Goods	Premium(%)	Maximum Coverage Limit (€) / Shipment	Maximum Limit per Bottom (€) / Customer	Deductible (€) / Shipment
Mobile Phones	0,25%	500 €	30.000 €	--
All other Electronic Goods	0,35%	5.000 €	50.000 €	--
Telephone Cards	0,065%	5.000 €	50.000 €	500 €
All other Merchandise (cloths, furniture, etc)	0,10%	800 €	10.000 €	150 €

*Note: When Supplementary Insurance (Full) or Business is requested, the Automatic Insurance does not hold and the additional amount of the premium is collected.*

## **Volume Charge**

The charge for each shipment depends on the combination of size and weight (volumetric system of the International Air Transport Association IATA). If the volumetric weight of the shipment is greater than the actual weight, then the charge is based on the volumetric weight and is calculated by multiplying the shipment's three dimensions and then by dividing by 5000.

$$\text{Volumetric Weight (in Kg)} = \frac{(\text{length}) \times (\text{width}) \times (\text{height}) \text{ in centimeters}}{5.000}$$

Especially for the ACS EU Economy and ACS Cyprus (EC) Economy services the volumetric weight is computed by multiplying the three dimensions of the package in centimeters (cm) and then by dividing by 3000.

## **Clarifications & Explanations**

1. For cases of more than 10 consignments per month, discounts are given according to the amount of consignments as well as monthly billings and payments for the rendered services. For more information please contact the local ACS store.
2. A Network City is every city in Greece where ACS has a service point (store), as indicated in the current ACS information pamphlets.
3. The charges for courier services as well as the delivery times vary according to the geographical location of the collection point and the delivery point. The categories of the geographical classification are as follows:
  - 3.1 Within the City – Regards consignment collection, transport and delivery within the same Network City. Specifically and only for the prefectures of Attica and Thessalonica, every consignment, for which collection and delivery is carried out within

the prefecture of Attica or within the prefecture of Thessalonica, is considered Within the City, with the exception of some Difficult to Access Areas/Locations.

3.4 Island Destinations - – Regard consignment collection, transport and delivery for the Island Destinations of ACS’s network, in Greece (the islands).

3.5 Difficult to Access Areas/Locations are the areas beyond the limits of the ACS Network Cities. More information is available on the website [www.acscourier.gr](http://www.acscourier.gr) or at ACS’s local stores. A surcharge applies for consignments to Difficult to Access due to the distance traveled and the level of difficulty to access.

- The tariff policy for Difficult to Access Areas of logo DA, is the same as the one for D2D according to the respective destination, even for the P2P consignments, at no extra charge, but the delivery times are the same as those of the Difficult to Access Areas (DA).

3.6 Especially for consignments which regard competitions, the delivery times and the their terms are those that are described in the official tariff schedule of the Company plus one business day and they supersede any other specific agreement with the sender.

4. The regular hours of operation of ACS’s network (stores) are from 08:00 to 20:00 Monday to Friday and from 09:00 to 15:00 on Saturday, except during local and national feasts and holidays. Regarding the stores of third – party collaborating networks with ACS (ACS Smart Points & ACS Kiosk Xpress), the applicable business hours are as per these stores. Business hours vary according to location. Specific information is provided on ACS’s website at [www.acscourier.gr](http://www.acscourier.gr) or at ACS’s local stores.

5. There are no Morning Deliveries and no Deliveries within the preferred 2-hour time frame for parcel consignments of actual or volumetric weight exceeding 5,50 kg. These services are only available for destinations-addresses within the City Limits of the ACS store in charge of the delivery and do not regard the Difficult to Access Areas. The usual starting times for deliveries by the Stores are mentioned in ACS’s website at [www.acscourier.gr](http://www.acscourier.gr) . For cases where the above conditions are not met, the shipper/recipient is responsible for the use of this service (no liability to ACS).

6. The regular hours of operation regarding Same Day Delivery Service are 08:00 to 20:00 Monday to Friday and 09:00 to 15:00 on Saturday.

7. The limits of the Geographical Zones regarding Same Day Services are described in the following table:

<b>Zone B</b>	City Limits	Excluding the periphery road (Kalohori, Industrial Area of Thessalonica, Ionia, Oreokastro, Eukarpia, Panorama, Thermi, the Airport, East & West suburbs)
<b>Zone C</b>	Aspropyrgos - Aharnai - Elefsina - Phylli - Thracomakedones - Varymbombi - Kryoneri - Anixi – Agios Stephanos - Dionysos - Stavros - Spata -Paianea – Glyka Nera - Markopoulo - Varkiza - Vari	Rest of Thessalonica Prefecture
<b>Zone D</b>	Rest of Attica Prefecture	-

For consignments between two Zones or on Zone limits, charges are based on the Zone with the higher charge.

8. The hours of operation for placing telephone orders for Same Day Delivery Service within Attica are 09:00 to 18:00 for Zone A, 09:00 to 17:00 for Zone B and 09:00 to 15:00 for Zone C.

9. The hours of operation for placing telephone orders for Same Day Delivery Service within Thessalonica are 08:00 to 18:00 for Zone A and 09:00 to 17:00 for Zone B.

10. The delivery time for Same Day Delivery Service within the same city starts from the time the telephone order is placed by the Customer.

11. For same day delivery from one ACS network city to another, the telephone order must be placed, depending on the destination, from 08:00 up to 14:00 within the same day. Please ask the local ACS store regarding the availability of this service prior to placing the order.

12. Regarding same day deliveries, when the dimensions of the transported item exceed 35cmx30cmx25cm or when the actual weight of the shipment exceeds 6 kg, the use of an automobile is mandatory at a surcharge. The charge is determined as follows:

12.1. For up to 6 kg, the charge is the same as that for the 2 kg shipment by destination zone, plus the surcharge for the extra kilograms beyond the two kilograms,

12.2. For weights above 6 kg, the charge is the same as that for the 2 kg shipment by destination zone, plus the supplementary service for parcel carriage by automobile, plus the supplementary service Surcharge for the extra kilograms beyond the 20 kg shipments.

12.3. The use of an automobile is mandatory for same day deliveries to, from and within Zone C of the Thessalonica Prefecture.

**13.** For use of supplementary services (such as COD, Saturday deliveries etc.), there is a surcharge for same day delivery which is equivalent to the surcharges applied on the basic tariffs.

**14.** The international services "ACS Europe 5", "ACS World Express/World Import Express", "ACS Cyprus Economy (EC)", "ACS Europe Economy (EU)" and "ACS Europe Large Parcel (ED)" are provided in cooperation with GLS as well as with other well-known international companies. International deliveries and delivery times entail primarily deliveries that are made in the main cities and at the recipient's address. In case of international deliveries outside the cities or in remote locations/destinations and in case that the exact address is not available, the time and method of consignment delivery can be modified according to the delivery criteria of the cooperating courier companies in each country or of their representatives. These specific deliveries can be made to the nearest service point of the cooperating courier company or representative of ACS, or can be delivered at their discretion in accordance with the procedures followed in the specific region (in collaboration with other cooperating courier companies or universal service providers). Especially for Cyprus, consignment deliveries to Cyprus at remote and / or difficult to access areas outside the cities (DAs) (DA1, DA2, DA3) will have additional delivery time 1-5 business days. The Postal Codes of these areas are listed on the ACS website. If the customer prefers faster delivery, he/she can request supplementary service of immediate delivery at the DAs areas of Cyprus (same day or next day delivery of arrival in Cyprus, depending on arrival time) following pre-agreement and at an additional charge.

**15.** ACS S.M.S.A. will make every reasonable effort in order to deliver the consignments as per its operation schedule and the normal delivery times. However, in the event that delivery times are surpassed, ACS's responsibility will be strictly limited to the amounts that are specified in ACS SMSA's General Terms of Carriage. All delivery times regard the number of business days as of the day of departure from Attica and relate to the time period until the first delivery attempt to the recipient's address. For departures from Attica, it is understood that the "ready to deliver" consignments are collected in Attica:

- no later than 18:00 for Courier Services regarding Domestic Envelopes,
- no later than 16:00 for Courier Services regarding Domestic Parcels, the ACS Kiosk Express Service & ACS Smart Points
- no later than 13:00 for International Services.

For consignments involving collections from the Rest of Greece, the stated delivery times increase according to the time period involved for carriage from a specific point of collection to the point of arrival in Attica, a time period which usually corresponds to the delivery time of a carriage from Attica to the said point of collection. Consignments collected after the above hours and/or their transport mean has already departed from the store (depending on the point of collection and based on the deadline for collections) and/or their weight (volumetric or actual) exceeds 2 kg may depart the next business day. Any technical problems occurring outside ACS's business hours, at the points of the collaborating networks, may modify respectively the delivery times of the consignments from these points.

**16.** The packaging of "Bottle I, II & IV" consist of a special combination of specific interior and exterior packaging, and are considered appropriate exclusively and only for shipping standardised and tightly sealed bottles, of gross weight up to 1,50 kg each (which corresponds to net contents of 750ml), and of dimensions for the base diameter from 63 mm to 83mm and for the height from 300 mm to 335 mm, with top diameter of the bottle from 25 mm to 30 mm. The total weight of the consignment, including the packaging, can not exceed 2,0 kg for the Bottle I service, can not exceed 6,0 kg for the Bottle II service, can not exceed 10,0 kg for the Bottle IV service. The supplementary Package Service regards the provision by ACS to the client of standard outer package for Boxes or Envelopes or plastic bags (Packs) of various sizes, whereby the client has full responsibility for the internal packaging of the shipped object(s) (regarding Boxes), for the resistance of the whole packaging (regarding Packs and Envelopes), for the final integrated assembly as well as for the appropriate internal and total packaging, as per the limitations of the standard packaging and taking into consideration that the consignments are loaded along with other consignments and thus may be subject to multiple uploads depending on their destination.

**17.** Business Days are the days from Monday to Friday, excluding national and local holidays/feasts.

A Day is defined as the entire duration of a calendar day, from 00:01 to 23:59. However, collections and deliveries are usually carried out during the operating/business hours of the local stores.

**18.** ACS or a collaborating network which operates/ receives or delivers on behalf of ACS reserves the right to request proof of identity upon consignment delivery at the stores of ACS's network and the customer has the obligation to conform accordingly. Generally, authentication of the recipient's identification is not carried out for courier services, only the recipient's surname/name is recorded (by his/her declaration), unless otherwise agreed in writing or there is special treatment related to a supplementary service or the services are those mentioned above (delivery at the stores of ACS's network).

**19.** In the event that a consignment exceeds a specific weight limit, the consignment weight will be considered to be equal to the next weight step, that is an upward rounding off will be applied. In the case of Domestic Services the rounding is made to the next one kilo increment and in the case of International Services to the next ½ kilo increment. *The charge based on weight is made by taking the largest of the volumetric, registered or actual weight of the consignment.* For domestic consignments of parcels/small parcels which comprise more than one item (with the same sender and the same recipient) the minimum weight per item will be 1 kg.

**20.** Consignments are accompanied by an Express Delivery Voucher (EDV) which, at times, may be also be termed as Proof of Transport, Proof of Delivery-Collection, POP-POD Voucher, ACS Connect, AWB, or may not even have a title.

**21.** The charging of Express Courier Services can be made in cash or on credit either to the shipper or to the recipient or to the assignee (the charging is made to the assignee only for customers on credit). The use of bank card is feasible for the payment of the shipping task, payment of the supplementary courier services, as well as for cash on delivery and to credit clients for invoice payments.

**22.** The delivery of consignments is normally made at the recipient's address, but it can also be made at a store of ACS's network or at a store of a third party point/network contracted with the ACS or other address upon request for redirection. The modification of the delivery point can be done upon instruction by the sender or the recipient.

**23.** The Company's responsibility regarding the transported documents or articles through Courier Service expires at the moment of delivery of the document or article to the recipient as evidenced by the signing of the delivery by the receipt. The recipient's signature can be written on the receipt – delivery document or recorded electronically in the data recording device for the receipt and delivery of consignments (PDAs), or recorded in other information system (computer, multifunction touch screen etc.). In addition, instead of the said signing, the delivery can be carried out using the special security code (PIN), which is sent by ACS in the recipient's information data that the sender has given to ACS (mobile phone number or email address) at the time of placing the consignment order or during its progress. The security code (PIN) serves as a signature. Simultaneously with the consignment delivery and the said signing, the corresponding delivery data are recorded (time, date and recipient's name and/or title).

**24.** The detailed description, the terms and the clarifications of the ACS Smart Point, ACS Cyprus Economy (EC), ACS Europe Economy (EU) and ACS Europe Large Parcel (ED) services are included in the respective tariff schedules which are available on ACS's website.

**25.** The Courier and Transport services as well as the charges that are mentioned in the present document are governed by ACS's General Terms of Carriage and by the Charter of Obligations towards Consumers (COC), which are available on the website [www.acscourier.gr](http://www.acscourier.gr) .

**26.** The present tariff schedule and clarifications hold as well for the Transport services (consignments exceeding 35 kilos).

**27.** The present tariff schedule includes VAT (presently at 24%), wherever it is stated so. Tariffs will change accordingly in the event of a VAT change.

**The present price list is valid from 01/01/2025.**

The present document is an extract of ACS's official tariff schedule and regards the Courier and Transport Services. The applicable tariff schedule is published on the company's website at [www.acscourier.gr](http://www.acscourier.gr) . ACS reserves the right to make changes to the information/data of this document without prior notification, always in accordance with the applicable stipulations of law.
